

HV15kV 0-15kV Variable HV Power Supply

Specifications:

Output: 0-15kV 15W (positive or negative polarity)

Voltage Regulation: 0.1%

Ripple pk-pk: 0.01% of FS

Output Voltage Control Input: 0-5V DC or through 10 turn potentiometer

Temperature Stability: +/-100ppm/C

Optional:

DAC controlled, RS232C programmable using PC software.

External Power Source:

220V 50Hz 5A

Instrument Casing:

Shielded 3mm thick Aluminum casing, shielded from all sides in rectangular casing.

Warranty:

12 months free repair / replacement warranty. To be serviced at our factory in Gwalior.
